

ABERDARE TECHNICAL COLLEGE

SCHEME OF WORK

DEPARTMENT: ELECTRICAL

COURSE CODE: 0713 251 03A

UNIT NAME: Install Conduit System

UNIT OF COMPETENCY: INSTALL CONDUIT SYSTEM

TRAINER: JOHN MAINA

TERM:1

PREPARATION DATE: JANUARY 2026__

WEEK	HRS	ELEMENT	PERFORMANCE CRITERIA	LEARNING OUTCOMES	CONTENT / RANGE	ACTIVITIES	RESOURCE / REFERENCE	REFLECTION
1	4	Identify conduit accessories	Conduit types identified as per IEC standards	Identify conduit types correctly	PVC and Metallic conduits	Demonstration and identification	Sample conduits, IEC regulations Electrical installation by scadan	
JALA	4	Identify conduit accessories	Conduit sizes identified as per IEC standards	Identify conduit sizes correctly	20mm, 25mm, 32mm conduits	Measuring and comparison	Tape measure, conduits	
3	4	Identify conduit accessories	Conduit accessories identified as	Identify conduit accessories correctly	Bends, couplers, saddles, junction boxes	Practical identification	Accessories samples	

			per IEC standards				Electrical installation by scadan	
4	4	Prepare conduit work pieces	2.1 Safety measures applied as per OSHA/EHS standards	Apply safety practices	PPE, safety rules	Demonstration and practice	PPE, OSHA manual	
5	4	Prepare conduit work pieces	2.2–2.4 Tool selection, measuring and cutting	Measure and cut conduit accurately	Cutting, measuring and marking tools	Guided practical	Hacksaw, tape measure, marker	
6	4	Prepare conduit work pieces	2.5 Housekeeping activities performed	Maintain clean working area	Waste disposal, tool storage	Cleaning exercise	Storage racks	
7	4	Mount conduit work pieces	3.1–3.3 Mounting and marking as per IEC standards	Mount conduits correctly	Marking out, fixing saddles	Practical installation	Drill, screws, saddles	
8	4	Install electrical cables & accessories	4.1–4.3 Safety and cable identification	Identify cable colour codes and sizes	1.0–6.0mm ² cables, IEC colour codes	Demonstration	Sample cables	
9	4	Install electrical cables & accessories	4.4–4.6 Cable drawing and fixing accessories	Draw cables and fix accessories	Cable pulling, fixing switches/sockets	Practical installation	Draw wire, accessories Electrical installation by scadan	
10	4	Perform tests and inspection	5.1–5.3 Visual inspection, continuity & polarity test	Perform testing correctly	Multimeter use, inspection checklist	Demonstration & CAT	Multimeter, testers	CAT Conducted
